

Release prisoners after they complete jail sentence: SC

Abraham Thomas
letters@hindustantimes.com

NEW DELHI: The Supreme Court on Tuesday directed all states to ascertain if any convict was languishing in prisons beyond the fixed term of sentence as it underlined that such prisoners would be entitled to release without seeking any further order for remission.

The order came in a petition filed by Sukhdev Yadav, a convict in the 2002 Nitish Katara murder case, whose life term was converted to a fixed term sentence of 20 years, without any remission, by the top court in October 2016. After the sentence period ended on March 9, Yadav's application for remission was rejected by the Delhi government. He then approached the apex court, which first granted furlough on June 26 and ordered his release on July 29.

In a detailed judgment giving

reasons for releasing Yadav, a bench of justices BV Nagarathna and KV Viswanathan said, "On completion of 20 years of sentence, it was wholly unnecessary to seek remission as during the period of 20 years, he was not entitled to any remission."

"From March 9, 2025 (when he completed the 20-year sentence), he cannot be kept in jail. His continuous incarceration after March 9 till June 25 (when he was released on furlough) was illegal," the bench held.

Earlier, the Delhi government had objected to Yadav's plea for release, stating that the 20-year sentence was stipulated within the life term as a period within which he was not entitled to remission. After he had undergone this period, the Sentence Review Board (SRB), which considers remission of prisoners, refused him "premature release" on March 28 stating he has "potential to commit crime".

The top court noticed the facts

The order came on the petition of a 2002 murder convict. ANI

of the case and felt concerned whether such a legal interpretation was coming in the way of release of other similarly situated convicts. "This court has held that prisoners are languishing behind bars even after being acquitted or on completion of sentence. Let a copy of this judgment be circulated to all home secretaries to ascertain whether any accused/convict has remained in jail beyond the period of sentence and if so, to

issue directions for their release, if not wanted in any other case," the bench ordered.

Underlining the protection of Article 21 of the Constitution that guarantees life and liberty, the bench added: "We hold that in all cases where an accused/convict has completed his period of jail term, he shall be entitled to be released forthwith and not continued in imprisonment if not wanted in any other case."

It further directed the National Legal Services Authority (NALSA) to communicate the list of such prisoners to the state and district legal services authority for implementation of the judgment.

The bench further clarified that when a convict is sentenced to life imprisonment with an accompanying condition that such a convict shall not be entitled to remission for a 20-year period, they ought to be released on completion of the said term. However, this will be subject to

the condition that other punishments for the accompanying offences run concurrently and the convict is not wanted in any other case.

In such a scenario, the court held that the convict will not be required to apply for remission as the life sentence has been replaced with a sentence of 20 years without remission.

Senior advocate Siddharth Mridul, arguing for the petitioner, submitted that with the October 2016 ruling by the top court, Yadav cannot be allowed to remain in jail beyond completion of the fixed-term sentence. Releasing Yadav on July 29, the court had said: "Once the court has quantified a sentence without remission for 20 years, there is no sentence beyond 20 years."

The complainant in the case Nilam Katara, the mother of Nitish Katara, had also argued and opposed Yadav's release claiming that the witnesses have been living in fear.

SEC says sought India law ministry's help on summons for Adani

Shashank Mattoo
letters@hindustantimes.com

WASHINGTON: The Securities and Exchange Commission is in touch with India's law ministry to serve billionaire Gautam Adani and his nephew Sagar Adani with legal documents related to a civil suit alleging violations of American securities laws, the US regulator said in a letter filed in a New York City court.

In its status updated dated August 11 to Magistrate Judge James Cho of the United States District Court for the Eastern District of New York, the SEC said that Indian authorities have not yet served the Adanis, based in India, with the summons yet.

The SEC filed charges in November 2024 against the two businessmen, claiming they had a role in alleged payments to the tune of hundreds of millions of dollars to Indian officials for securing renewable energy contracts.

The US markets regulator

THE SEC TOLD A NEW YORK COURT THAT INDIAN AUTHORITIES HAVE NOT YET SERVED THE ADANIS, BASED IN INDIA, WITH THE SUMMONS YET

said it filed the charges as a 2021 offering by one of the companies allegedly involved, Adani Green, raised funds from US investors and the shares of another company, Azure Power, was previously traded on the New York Stock Exchange.

The Adani Group has denied the charges, terming them "baseless".

The group did not respond to a request for comment on the SEC's latest filing.

The SEC informed the New York Court that it intends to continue efforts to work with Indian authorities.

SHARING USER PREFERENCES NOT PRIVACY BREACH: WHATSAPP

Ayesha Arvind
letters@hindustantimes.com

BENGALURU: Social media platform WhatsApp told the National Company Law Appellate Tribunal (NCLAT) on Tuesday that sharing basic account details and generic user preferences with Meta cannot be regarded as a violation of users' right to privacy.

Senior counsel Mukul Rohatgi, who appeared for WhatsApp, told NCLAT that the only information WhatsApp which too is owned by Meta, shares with the latter, is "generic, non-content data" inferred from "user interactions" with businesses on the platform, such as an "interest in luxury cars, frequent restaurant engagement, or regular travel."

Rohatgi argued that WhatsApp merely tells Meta how many times a user goes to a restaurant but not what they eat. It tells Meta how many times a counsel argues before the Tribunal, but not the content of their actual arguments, he added.

This user metadata does not include the actual content of messages and therefore cannot amount to a breach of privacy, the senior counsel argued.

"Personal preferences such as who your friends are, where you go, what exactly you eat, constitute privacy. If I (WhatsApp) am only telling (Meta) that those in the age group of 50 to 70 prefer to buy a Mercedes car, that does not constitute any breach of privacy. That is not an offence," Rohatgi said. NCLAT was hearing the appeals filed by WhatsApp and Meta challenging a 2024 order of the Competition Commission of India (CCI) that imposed ₹23.14 crore penalty on Meta for abuse of dominance.

The dispute arises from a January 2021 notification issued by WhatsApp informing users about its revised terms of service and privacy policies. The new policy stated that effective February 8 the same year, users were required to accept all terms, including an expanded scope of data collection as well as mandatory data sharing with Meta companies, to continue using WhatsApp.

The Tribunal will continue hearing the arguments on Wednesday.

35 yrs on, SIA raids 8 places in Kashmiri Pandit murder case

HT Correspondent
letters@hindustantimes.com

SRINAGAR: The State Investigative Agency (SIA) of Jammu and Kashmir police on Tuesday raided eight locations in Srinagar district as it reopened the probe into the murder of a Kashmiri Pandit woman 35 years ago during the outbreak of militancy.

The case pertains to the brutal murder of a nurse, Sarla Bhat, who went missing from her hostel at Sher-e-Kashmir Institute of Medical Sciences (SKIMS) at Soura in April 1990 and was found dead in Srinagar.

The SIA, which recently took over the investigation of the case, conducted the raids at the residences of several persons who were formerly associated with the banned terrorist outfit,

S.I.A. RAIDED RESIDENCES OF SEVERAL PEOPLE FORMERLY LINKED WITH BANNED TERRORIST OUTFIT JKLF

Jammu and Kashmir Liberation Front (JKLF), in connection with the murder. "The searches conducted at eight locations throughout district Srinagar have resulted in the recovery of some incriminating evidences, which will help in unearthing the whole terrorist conspiracy with an ultimate aim to deliver justice to the victim and her family," a police spokesperson said. The SIA, which was consti-

tuted within the J&K Police in November 2021 for speedy investigation and prosecution in terror-related cases as well as coordinating with central agencies, is yet to make any arrest in connection with the murder case, which is registered at the Nigeen police station. Reacting to the development, Bharatiya Janata Party (BJP) information and technology department in-charge Amit Malviya said Bhat's killing remains one of the most chilling reminders of the atrocities that triggered the mass exodus of Kashmiri Pandits in 1990.

"...Her murder was not just a heinous crime but part of the targeted campaign of ethnic cleansing against Kashmiri Pandits, aimed at driving the Hindu minority out of the Valley," he said in a post on X.

DGCA issues notice to IndiGo over improper pilot training

Neha LM Tripathi
letters@hindustantimes.com

NEW DELHI: India's aviation regulator has issued a show-cause notice to IndiGo for using "non-qualified simulators" to train pilots operating to three challenging airports, citing scrutiny of records and email replies from the airline.

The Directorate General of Civil Aviation notice, issued on Monday and seen by HT, found that "Category C (Critical) airfield training for flight crew" was conducted using simulators not approved for specific airports as required under Civil Aviation Rules.

It found that about 1,700 IndiGo pilots received training on simulators that lacked the

required approval to prepare them for flights to Leh, Kozhikode and Kathmandu. These three destinations are classified as "critical" airports, meaning they present specific flying challenges that require specific, certified training equipment.

The review showed several Full Flight Simulators used for training, testing or checking used by the airline were not qualified or approved for those specific destinations. Issues were recorded across 20 simulators nationwide—two each in Delhi, Chennai and Hyderabad, five each in Greater Noida and Gurugram, and four in Bengaluru. All were found unqualified to operate training for the three airports.

"As an approved post holder

THE REVIEW SHOWED SEVERAL FULL FLIGHT SIMULATORS USED BY THE AIRLINE WERE NOT QUALIFIED OR APPROVED FOR THOSE SPECIFIC DESTINATIONS

(director - training) of M/s IndiGo, you were responsible for ensuring compliance with all applicable Civil Aviation Requirements. However, it has been observed that you have failed to ensure the use of appropriately qualified simulators for

training related to Class III (critical) airports, in violation of the above-mentioned CAR provisions," DGCA said in the notice.

The regulator has given IndiGo 14 days to respond, warning: "Therefore, you are hereby called upon to show cause within 14 days of receipt of this notice as to why action should not be taken against you for the said lapse under the applicable provisions of the Aircraft Rules and CAR."

DGCA said it would presume the airline had nothing to submit in defence should it fail to respond within the deadline. "Ex parte action shall be initiated against you as per rules," the notice added.

The airline confirmed the notice.

GM/WR SHRI VIVEK KUMAR GUPTA UNDERTAKES SHRAMDAAAN AS PART OF THE SWACHCHATA ABHIYAN

"Swachhata Abhiyan" being observed over Western Railway with great enthusiasm WR promotes cleanliness and environmental conservation through Shramadaan and Tree Plantation drive Indian Railways is observing "Swachhata Abhiyan", as part of the ongoing Independence Day celebrations of our nation, and also to reaffirm its commitment to the national cause of cleanliness and public hygiene. This campaign is being observed across all its Zones and Production Units including PSUs, in two phases, namely from 1 st to 15 th August, 2025 followed by 16 th Aug to 31 st Oct, 2025. The campaign covers our endeavors towards cleanliness in all spheres of Railway functioning i.e. stations, trains, colonies, offices, depots, and workshops etc, while also promoting awareness among staff and passengers. In this spirit, Western Railway is also actively observing the "Swachhata Abhiyan", across all its divisions and units. Embracing this attitude Shri Vivek Kumar Gupta, General Manager of WR has shown the lead and set an example by undertaking Shramadaan at Mumbai Central station on 8 th August, 2025. He was joined by Shri Pankaj Singh, DRM of Mumbai Central and other senior railway officials as well as staff. On this occasion, GM in his address emphasized the importance of maintaining cleanliness.

Shri Vivek Kumar Gupta, GM of WR undertaking Shramadaan at Mumbai Central station. (Right photo) Shri Gupta alongwith Shri Pankaj Singh, DRM of Mumbai Central is seen participating in the Tree Plantation drive.

Arrival of Tesla in India Redefines the EV battleground

The Indian luxury automobile landscape is undergoing a seismic shift with most awaited launch of Model Y of Tesla. Tesla brings with it not only the cutting edge technology and performance but also challenges for the competitors, especially the dominating, long established German marques - Mercedes-Benz, BMW, Audi, and Porsche, both in the EV and ICE (Internal Combustion) segments of these luxury car markets. Let's take a look at how this disrupts the present status quo, how the traditional players are responding to the challenge and what the future holds for the EV Luxury market in India and beyond. Tesla Model Y launched in India on 15 July 2025, priced from ₹59.89 Lakhs to ₹73.89 Lakhs (ex-showroom). Deliveries are expected to begin in Q3 2025 with first phase focussed on metros like Mumbai, Delhi, Gurugram and Pune. Model Y is available in two variants - Standard and Long Range. Standard RWD priced at ₹59.89 Lakhs, up to 500 KMs range, 295 hp, 63K Wh Battery. Long Range RWD priced at ₹67.89 Lakhs - ₹ 73.89 Lakhs, up to 622 KMs range, 312 hp, 83K Wh Battery Key USPs include full suite ADAS (Autonomous Driving Capability, Lane keep, Adaptive Cruise), frequent OTA Software updates, a minimalist high-tech cabin (15.4 inch display) and the best in class infotainment with Tesla Theatre and much more. Market Impact - Disrupting the Status quo and Price & Technology shake-up.

SIEGER Leverages Advanced Manufacturing to Accelerate Automation Solutions for Mumbai Realty Projects

Mumbai, August 12, 2025: SIEGER, India's leading automation solutions provider, is scaling up its state-of-the-art manufacturing capabilities to meet the surging demand for high-quality, timely automation systems in Mumbai's booming real estate sector. With a 21,000 m² advanced production hub in Coimbatore—part of a larger 40,000 m² integrated campus—SIEGER delivers end-to-end automation solutions from design and prototyping to precision manufacturing and on-site deployment. Its facility is fully digitalised with CNC machining, QR-coded component tracking, conveyorized powder coating, and a Government of India-certified R&D centre, enabling unmatched speed, accuracy, and customisation. "At SIEGER, our fully digitalised production and advanced engineering ethos enable us to deliver tailor-made automation solutions with precision and speed—capabilities that are invaluable for serving high-demand markets like Mumbai," said Mr. Ashwin Karwaradaraj, Director Operations, SIEGER Global. From automated parking systems that unlock valuable urban space to Tower Parking solutions for high-rise construction and Puzzle Parking solutions for mixed-use developments, SIEGER's in-house capabilities ensure projects are executed on time and to global standards. Mumbai's real estate and infrastructure expansion is driving unprecedented demand for automation that can reduce project timelines, optimize land use, and ensure regulatory compliance. SIEGER's manufacturing advantage directly addresses these needs, making it a strategic partner for developers, architects, and infrastructure planners.

Strategic Reset: India Must Seize This Energy Crisis as an Opportunity

(Dr Aruna Sharma, Policy Advisor, Development Economist, and former Secretary Steel GoI, author of 5 best seller books) The recent escalation in trade tensions with the United States, following the announcement of a 50% tariff on Indian exports by President Donald Trump, is more than just geopolitical and trade-related flashpoints. It is a stark reminder of India's persistent energy vulnerability to unpredictable diplomatic shifts and new global political alliances. India has responded with measured defiance, refusing to back down, calling the tariffs unjust, unfair, and unreasonable, reaffirming that economic pragmatism and national interest drive its energy procurement decisions. Prime Minister Narendra Modi has emphasized that India is moving toward energy self-reliance, shifting policy focus from merely generating government revenue to maximising domestic production. But rhetoric alone will not cut the ice. Along with energy security, the overwhelming dependence on imports always comes the threat of price escalation and supply security. Experts estimate that the newly imposed U.S. tariffs could inflate India's annual oil import bill by up to \$11 billion. To counter this, India must rapidly scale up domestic exploration and production (E&P). A Strategic Opportunity: India must seize the moment as a strategic opportunity to reset its energy policy and double down on its energy focus to protect the nation against geopolitical and other risks and help the country pursue an independent foreign policy. As the world's third-largest energy consumer, India imports nearly 90% of its crude oil requirements, with consumption projected to increase in the next few decades. Hence, immediate steps should be taken to bridge the rising demand-supply gap. One of the immediate policy changes calls for the extension of oil and gas contracts until the economic life of the field. Several fields under Production Sharing Contracts (PSCs) are nearing the end of their contractual terms, making operators hesitant to invest further without a guarantee of their continued ownership. A longer time horizon will provide certainty about the project & cash flow and returns, attracting private investments in the sector. Equally important is granting PSC operators the same terms as under Revenue Sharing Contracts (RSCs), which provide greater flexibility to execute projects and manage operations. It would not only prevent delays and disputes, but also provide a more transparent, revenue-based framework for operators.

Corporate Buzz

NAMASTE ABHIYAN: Redefining Ticket Checking with Discipline and Dignity "Not just five fingers in a fist, but ten fingers in a NAM ASTE – powerful, purposeful, and dignified"

WR's Mumbai Central Division has launched a thoughtful and ethically grounded initiative: the NAMASTE Abhiyan, short for "NAMaste Aur Strong Ticket Examination." The campaign is a philosophy that merges humility, ensuring rule enforcement with dignity and empathy. At the heart of the initiative lies a deep commitment to values such as dignity, safety, public interest, empathy and accountability. The Abhiyan aims to restore confidence among ticket checking staff, safeguard their rights, and enhance the overall passenger experience. Under this initiative, a large-scale fortress ticket checking operation was carried out at Borivali station, held on 06 th August, 2025. Over 300 ticket checking staff, along with support from the RPF and GRP, was part of this drive. As a result, around 5,200 ticketless travellers were detected and penalty/ fine amounting to Rs. 13.50 lakh was collected. To ensure safety and transparency, specially designed protective vests have been given to TTEs. These vests carry compartments for body cameras, Hand Held Terminals (HHT), Excess Fare Ticket (EFT) Book and Mini Speakers for public announcements. This technological integration provides physical as well as legal protection to the ticket checking staff, while simultaneously reinforcing transparency and accountability in passenger interactions. Another critical component of the Abhiyan is the creation of pre-custody areas within station premises. These are localized zones under CCTV surveillance, designated to deal with ticketless travellers in a controlled and respectful manner.

Nashik Municipal Corp Organizes Tricolor Human Chain Under "Har Ghar Tiranga" Campaign

As part of the "Azadi Ka Amrit Mahotsav" celebrations and the "Har Ghar Tiranga" campaign, the Nashik Municipal Corporation organized a series of patriotic programs. On August 11, 2025, a grand human chain and the unfurling of a massive national flag were held at Rajiv Gandhi Bhavan. Students and teachers from various Nashik schools, representatives of educational institutions, and citizens participated enthusiastically, creating an atmosphere charged with patriotic fervor and resonating with slogans of unity and pride. The event was graced by Kumbh Mela Commissioner & Add. Commissioner Karishma Nair, Add. Commissioner Pradeep Chaudhary, Additional Commissioner Smita Zhagde & other dignitaries. The campaign witnessed active participation from Deputy Commissioners Ajit Nikat, Nitin Ner, Nitin Pawar, Superintendent Engineer Ravindra Dharmakar; Executive Engineers Nitin Patil, Ravi Bagul, Rajendra Shinde; Dr. Vijaykumar Devkar, Dr. Ajita Salunkhe, Dr. Jitendra Dhaneshwar; Asst. Commissioner Ramesh Bahiram; PRO Yogesh Komod; and other employees of Nashik Municipal Corporation as well as citizens of Nashik.

Adani Electricity Monsoon Safety Awareness Drive in BMC Schools

Adani Electricity and BMC Partner for Ganesh Pandal Electrical Safety in Mumbai MUMBAI – August 12, 2025 – With the much-anticipated Ganesh festival approaching, Adani Electricity is collaborating with the Brihanmumbai Municipal Corporation (BMC) Disaster Management Department to conduct essential electrical safety training for Ganesh Mandal volunteers across Mumbai. This joint effort aims to significantly improve emergency preparedness and reduce potential electrical hazards during the upcoming festivities. In a collaborative effort, Adani Electricity's safety officers and the BMC Disaster Management Department are participating in a series of "First Responder Training Programs" for Ganesh Mandal volunteers throughout Mumbai. The upcoming sessions are scheduled in locations such as Khar, Santacruz, Chembur, Dahisar, and Borivali. During these sessions, Adani Electricity experts will deliver vital lectures on electrical safety, providing volunteers with critical knowledge and practical skills. During the 30-minute sessions, Adani Electricity's officers cover a range of important topics. These include excavation safety, calculating appropriate load requirements, using the correct size and class of equipment, selecting weatherproof electrical materials, proper application for distribution company connections, temporary electrical setup guidelines, precautions for rain or wet conditions, safe wiring practices, and overall emergency and illumination safety for both the public and volunteers.

MHADA Chhatrapati Sambhajnagar Division extends the online registration

MHADA Chhatrapati Sambhajnagar Division extends the online registration and application submission deadline for 1323 residential units and 18 plots until August 31, 2025. Key Details - The Maharashtra Housing and Area Development Authority (MHADA) Chhatrapati Sambhajnagar Division is selling 1323 residential units and 18 plots through online computerized draw. The online registration and application submission can be done on the website (link unavailable) until Aug 31, 2025. - The draw will be held on Sept26, 2025, at the District Planning Committee Auditorium, Collector Office, Chhatrapati Sambhajnagar. Eligibility and Documents - Applicants need to submit their applications online along with the required documents and earnest money deposit. - The applicant's income proof for the financial year 2024-2025 is required. - For (PMAY) applicants, registration certificate is not required at the time of application submission but will be required before issuing the allotment letter. ■Reader Initiative Programme
