Auto-Cart Parking

Auto-Cart Parking is a highly effective solution for parking a large number of cars. It combines advanced technology such as a regenerative drive system and high-speed lifts to deliver a smooth and fast parking experience. Horizontal carts on each level significantly reduce the time required to park and retrieve cars. Available in two customizable models, the system can be integrated into existing building structures or installed as a stand-alone steel structure, offering flexibility, efficiency, and enhanced security.
