Complete Product Range

Highly skilled and experienced service & installation teams

State-Of-The Art Factory with advanced manufacturing facilities

R&D and manufacturing team collaborate to meet deadlines

Proven track record of successfully executing many Large-Scale Projects

Unwavering quality drives top customer satisfaction across all our products

10,000+
Car Parking Spaces

600+
Employees

30+
years of Automation

Our Infrastructure

The factory operates entirely paperless, ensuring a streamlined process. This advanced setup not only eliminates the need for physical paperwork but also enhances accuracy and efficiency across all production stages. Sieger is equipped with a wide range of specialized machines designed to manufacture components with the highest precision. These advanced machines deliver high-precision components, ensuring superior quality and durability in every product. All components are bar-coded for seamless process flow management and machined with precision to uphold superior quality standards. Complementing this, our advanced SIEGER Powder Coating and Liquid Painting systems ensure impeccable finishing for every products

R&D Team

- All our products are CE Certified and meets highest quality standards
- Our R&D is recognized by the Government of India and holds a DSIR certification
- Using latest PDM software, we ensure precise designs and efficient management.
- Our R&D team collaborates closely with customers & manufacturing to deliver world-class products that align with client needs
- Our in-house team comprises 50+ mechanical design engineers and 25+ software engineers, ensuring innovative and tailored solutions.
- We develop IoT-enabled software and manufacture electrical panels entirely in-house for seamless integration and reliability.

Installation & Service team

We have 35+ dedicated engineers in the CRM team for erecting/installing our parking system across India. We are committed by ensuring the longevity and optimal performance of your parking system. We provide routine maintenance (AMC/CAMC) 24 x 7 Support

Pit-puzzle Parking

The Pit-Puzzle Parking System offers parking spaces on three levels, arranged side by side in a grid format. It employs an efficient mechanism that allows parking spaces to move horizontally and vertically, facilitating the seamless transition of vehicles into the pit or up to the third level. Engineered with precision, the system is hydraulically designed to extend up to two levels above ground and one level below ground, maximizing space utilization.

Technical Data Sheet

Pit Puzzle Parking System
