At SIEGER,

we combine cutting-edge engineering with technological innovation. With over 3 decades of expertise in automation, we have become a trusted engineering company, known for fostering strong, long-lasting customer relationships. Our divisions are Textile Machinery, Car Parking Systems, and Automated Storage all aimed at delivering tailored solutions that add real value to our customers. Based at Coimbatore, SIEGER operates a 2,00,000+ square-foot state-of-the-art manufacturing facility. With presence across India and an expanding global reach, we are dedicated to providing world-class automation solutions that meet the highest standards of quality and efficiency

Complete Product Range

Highly skilled and experienced service & installation teams

State-Of-The Art Factory with advanced manufacturing facilities

R&D and manufacturing team collaborate to meet deadlines

Proven track record of successfully executing many Large-Scale Projects

Unwavering quality drives top customer satisfaction across all our products

10,000+
Car Parking Spaces

600+
Employees

30+
years of Automation

Our Infrastructure

The factory operates entirely paperless, ensuring a streamlined process. This advanced setup not only eliminates the need for physical paperwork but also enhances accuracy and efficiency across all production stages. Sieger is equipped with a wide range of specialized machines designed to manufacture components with the highest precision. These advanced machines deliver high-precision components, ensuring superior quality and durability in every product. All components are bar-coded for seamless process flow management and machined with precision to uphold superior quality standards. Complementing this, our advanced SIEGER Powder Coating and Liquid Painting systems ensure impeccable finishing for every products

R&D Team

- All our products are CE Certified and meets highest quality standards
- Our R&D is recognized by the Government of India and holds a DSIR certification
- Using latest PDM software, we ensure precise designs and efficient management.
- Our R&D team collaborates closely with customers & manufacturing to deliver world-class products that align with client needs
- Our in-house team comprises 50+ mechanical design engineers and 25+ software engineers, ensuring innovative and tailored solutions.
- We develop IoT-enabled software and manufacture electrical panels entirely in-house for seamless integration and reliability.

Installation & Service team

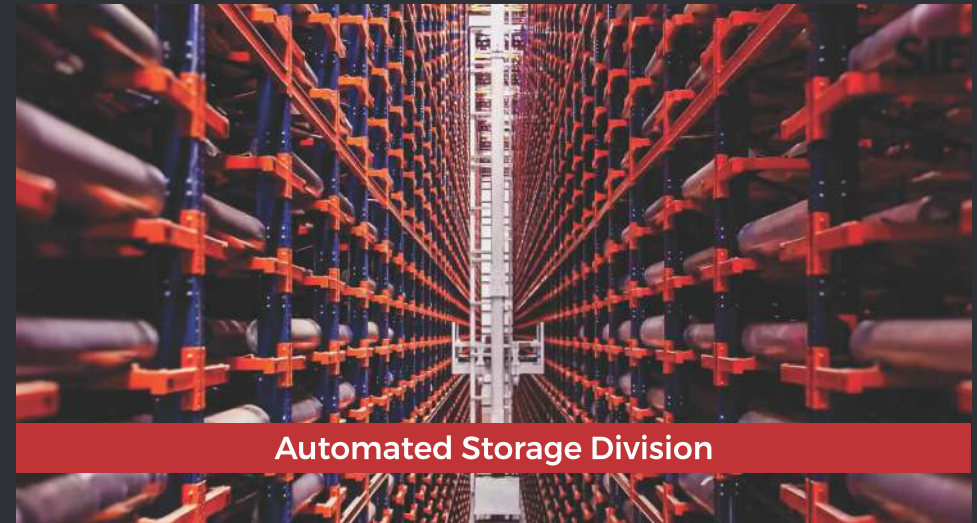

We have 35+ dedicated engineers in the CRM team for erecting/installing our parking system across India. We are committed by ensuring the longevity and optimal performance of your parking system. We provide routine maintenance (AMC/CAMC) 24 x 7 Support

Tower Parking

The tower parking system uses a lift-based mechanism, stacking cars vertically to make optimal use of space. It can accommodate cars weighing up to 2.5 tons and can reach heights of up to 70 meters above ground and 15 meters below ground. An elevator transports the cars to the appropriate level, while a turntable in the entry area allows for easy parking without the need to reverse. This system offers an efficient, space-saving parking solution with quick access.

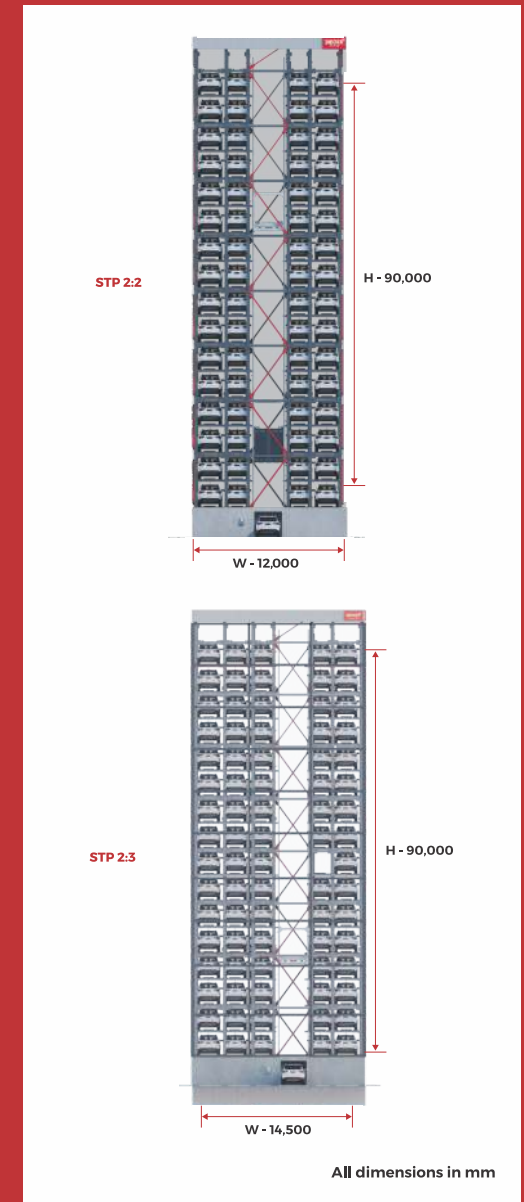

Technical Data Sheet

System Dimensions								
Parameter	Legend	RCC Tower Single Side Entry				Steel Tower Single Side Entry		
		STP 1:1	STP 1:2	STP 2:2	STP 2:3	STP 1:1	STP 1:2	STP 2:2
